tionary tendency of the continent affects the broken, by rescuing them from their desponmoney market, and rivets still more surely dency, and stipulating them to useful action. the commercial power of England, and her In view of these few thoughts we are reminsympathizer in commerce, New York, upon ded of the responsibility devolving on us, us, we must decide to act independently of and may we ever remember the words of a these influences. Each planter can send a poet, small portion of his crop, and if we can obtain advance so much the better; but if the diplemacy and commercial power of England cut us off from that assistance, it is the duty of the planters to ship without advances. The hereditary system of advances is the greatest evil of the South. The only argument for it is its necessity. It involves the planter in anticipation, and eats up his and manners. means by interest on the money, and gives the power and control of our great staple into the hands of others. Every dollar ad- better taste. vanced is a deposite of Southern wealth in Northern banks. But these are difficulties, and they must be overcome Let us commence in a small way, and keep the ball moving. For the purpose of discussion and an empty spoon. consultation there should be a general organization in the different counties, and there this a flourish for effort, by some temperance ducts, were substituted for the cheap wooden bear, by chloroform, which is somewhat TALLADEGA DISTRICT-W. H. McDaniel, should be some definite plan for a more complete complete combination of the planters. In the meanwhile, if my friends have sufficient confidence in me, I will receive consignments in Amsterdam myself, and devote my whole attention to those interests confided to me. I am not able to advance, [l wish that I was,] and can only say that I make this proposition from the necessities of the case. 'Direct trade' must go ahead; and if the world is allied against the planher commercial affairs, and a powerful monyed combination is arrayed against us to floece and oppress us, why, we must meet the issue, and take an individual interest in our own affairs. The cotton yarn interest confided to me will also be attended to. The The appeal is therefore to the planters to aid and in the movement. The friends of direet trade are not six months' recruits; we the Protestant reformation of the 16th century; and again I say, let the wise ones betting, and again I say, let the mighty powthink themselves in time of the mighty powthink themselves in time of the mighty powthe Protestant reformation of the 16th century; and again I say, let the wise ones betting the influence of cloroform commoneed.
